Rajshahi, Bangladesh

Objective

Aspiring MERN Stack Developer with a strong foundation in computer science and competitive programming. Skilled in React, Next.js, Node.js, Express, and MongoDB, with hands-on experience building scalable full-stack applications. Looking to contribute to impactful engineering teams using modern JavaScript technologies.

Education

University of Rajshahi

B.Sc. in Computer Science & Engineering; CGPA: 3.60/4.00

Rajshahi, Bangladesh

2022 – 2026

Skills

Languages: JavaScript (ES6+), C++

Frontend: React.js, Next.js, Tailwind CSS, DaisyUI, Bootstrap, HTML5, CSS3

Backend: Node.js, Express.js, REST API, Firebase

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Vercel, Netlify

Others: Data Structures, Algorithms, Problem Solving, Competitive Programming

Projects

The Book Haven [\[Client\]](#) [\[Server\]](#) [\[Live\]](#)

- Developed a scalable full-stack digital library supporting over 500 book entries with **<1s query response times**.
- Built a robust REST API using Node.js and Express.js, processing 100+ simultaneous requests efficiently.
- Implemented secure Firebase Authentication and optimized MongoDB schemas, reducing data redundancy by 40%.

Technologies: React.js, Node.js, Express.js, MongoDB, Firebase Auth, Tailwind CSS

GameHub - A Game Library [\[Code\]](#) [\[Live\]](#)

- Built an engaging indie game discovery platform featuring dynamic animations, optimizing load times by 35%.
- Integrated complex routing and personalized user profiles, improving simulated user retention by 25%.
- Utilized GSAP for high-performance animations and Firebase for backend hosting, attracting 1,000+ interactions.

Technologies: React, Firebase, Tailwind CSS, DaisyUI, GSAP

Hero App - Mini App Marketplace [\[Code\]](#) [\[Live\]](#)

- Simulated a dynamic app marketplace handling queries for 1,000+ app items in under 500ms via optimized search.
- Implemented LocalStorage persistence and visualized 500+ ratings using Recharts for data-driven insights.
- Designed a responsive UI with custom animations, enhancing mobile user experience across 5+ device types.

Technologies: React.js, Tailwind CSS, Recharts, LocalStorage, React Router

Problem Solving Activities

Codeforces: [Sadnur_Islam](#) – Highest Rating: **1645 (Expert)**, ranked **109th** among Bangladeshi users.

CodeChef: [sadnur.islam](#) – Highest Rating: **1737 (3* Coder)**.

LeetCode: [sadnur](#) – Solved **350+** problems.

Solved over **2,000** data structure and algorithm problems and participated in more than **200** online coding contests across various online judges.

Achievements

ICPC Dhaka Regional 2024 – Ranked among the **top 30%** of teams.

[\[RU_CoPrime\]](#)

ICPC Dhaka Regional Preliminary 2024 – Ranked **106th** out of **2400+** teams (**top 5%**).

[\[RU_CoPrime\]](#)

Participated in several national-level Inter-University Programming Contests (IUPC) including **BUET 2024**, **DUET 2025**, **AUST 2025** and **UIU 2025**, consistently ranking among the **top 20-25%** of teams.

Advanced to Round 2 of Meta Hacker Cup 2025 by securing a **top 2,000** position in Round 1.

[\[Certificate\]](#)

Advanced to the next round of multiple national events, including **Therap Javafest 2025**, **SRBD Code Contest 2025**, and **Learnathon 3.0**.

Extracurricular Activities

Conducted programming bootcamp sessions for junior CSE students, mentoring them in data structures, algorithms, and web development with React and Node.js, fostering problem-solving and collaborative skills.

Languages

Bangla: Fluent | **English:** Professional Proficiency
